LADIES' MUSICAL CLUB

A SPLENDID PROGRAM WAS CARRIED OUT AT THEIR CLUB ROOMS TODAY.

MISS FLORENCE SHULTZ, PIANIST

Mrs. John Baxter Sang the Groups of Rare Songs—Mrs. W. D. Steele and Miss Jessie Smith Were Also on the Program.

One of the most enjoyable programs the Ladies Musical club has had in many years was given at the club rooms this morning. The subject was Edward Grieg, the great Norwegian musician.

Miss Florence Shultz was the pianist and she gave her numbers in a manner which forecasts for her a brilliant future. Her playing throughout was characterized by a sureness of touch and a grasp of the author's meaning rarely found in an amateur. The entire difficult program was given without manuscript. Her playing of the brilliant Sonata was a revelation and a rare treat for her audience, as indeed was every number played.

Mrs. John Baxter sang two groups of rare songs by Grieg. Mrs. Baxter possesses a sweet, sympathetic voice and charmed all by her exquisite shading and dainty style of singing. The numbers were particularly suited to the singer. Miss Jessie Smith played Mrs. Baxter's accompaniments beautifully, and Mrs. W. D. Steele aided to the enjoyment of the program by telling the story of Grieg's life, explaining the numbers given. The following is the program:

- Piano—Sonata, E Minor, Opus 7.

PUBLIC APOLOGY MADE

In Church by Women for Marrying Non-Catholics.

Memphis, Tenn., Dec. 22.—What is recorded as the third public apology offered in a Catholic church in Tennessee by women for having given scandal occurred at early mass at St. Peter's cathedral when Mrs. P. J. Reilly and Mrs. James Ryan stood in a pew near the altar before Rev. Fr. Heffernan.

They were married to non-Catholics by a magistrate without special dispensation from the bishop of the diocese, and their act was to raise the excommunication sentence.

STILL ROBBING BANKS

Yeggmen Blew Open Oklahoma Institution but Secured Only \$600.

McAlester, Ok., Dec. 2.—Robbers early today blew open the safe of the Farmers State bank at Crowder, twenty miles north of here, and secured \$600. The bank building was almost demolished. The robbers made their escape.

BOOM FOR A SEDALIAN

And the Democrat-Sentinel Cheerfully Endorses It.

Most heartily does the Democrat-Sentinel endorse the following complimentary reference in the Warrensburg Star to one of Sedalia's most successful business men, Mr. Harry W. Servant:

"Harry W. Servant, proprietor of

the Arlington Pharmacy and two other drug establishments in Sedalia, is being strongly urged by his many friends throughout Missouri for appointment as a member of the state board of pharmacy under the incoming administration.

"Mr. Servant is one of the most competent men in the state for the position, and Gov. Hadley will reward a faithful party servant in recognizing him.

"Mr. Servant's extensive acquaintance in the state and his ability as a practical pharmacist fit him admirably for the position, and his appointment would lend strength to the board.

"He has many friends in Warrensburg who would be pleased at his appointment."

THE BIGGEST WELL YET

IT IS ON THE FARM OF THE REV. S. S. MARTIN NEAR HUMBOLDT, KAS.

SEDALIA DIVINE STRICTLY IN IT

Formerly Lived on the "Martin Farm," at Which Time He Was Presiding Elder of M. E. Church in That District.

The biggest and best oil well in the state of Kansas has been struck on the farm of Rev. S. S. Martin, pastor of the First M. E. church of Sedalia, seven miles east of Humboldt, Kas.

It is known as well No. 2, the first well, one of the best in the Sunflower state, having been struck on the same farm last August. Referring to this last strike the Humboldt Union says, under the caption, "Struck the Biggest Well Yet; Humboldt Gas Co. Strikes Another Big Well on the Rev. Martin Farm."

"J. M. Farnsworth brought in the largest well that has been discovered in the eastern field Wednesday. It is estimated at 12,000,000 feet, and Frank Fussman, who is having the work done, did not have the well drilled in as far as the other wells were drilled. This gives Humboldt a large supply for factories."

Rev. Martin will be congratulated by his legion of Sedalia friends on his good fortune. He formerly lived on the "Martin farm," and was at that time presiding elder of the M. E. church district in which Humboldt is located.

Who knows but that Rev. Martin may become a second Rockefeller or Archbold in the old fields of the west!

YEOMAN-MITCHUM WEDDING

Dresden Young Lady Is Married at Clinton, Oklahoma.

Miss Marye Mitchum, a pretty and accomplished young daughter of Mrs. C. C. Mitchum, of Dresden, and Blain A. Yeoman, of Clinton, Ok., were united in marriage at that place at high noon Monday, Rev. Dr. Davis officiating.

The bridal couple left shortly afterwards for Tampa, Fla., to visit Mr. Yeoman's old home and will be at home to friends at Clinton, Ok., after February 1, 1909.

Mr. Yeoman is connected with the Clinton Hardware company and also represents the Clinton Cigar company as traveling salesman. His bride has been spending the summer with relatives in Oklahoma.

BURGLARS SECURED BIG LOOT

Robbed a Bank at Pepperell, Mass., of \$14,000 Last Night.

Pepperell, Mass., Dec. 2.—Fourteen thousand dollars in cash was secured by burglars who early today blew open the vault of the First National bank of this city. The thoroughness and skill with which the work was done has convinced the police that the burglars were professionals.

Three men were in the party, and although seen escaping in an automobile, all trace of them was soon lost.

Filed Bond of \$15,000.

M. T. Henderson, sheriff-elect, today filed with Circuit Judge Hoffman a bond of \$15,000 for the faithful performance of the duties exacted from the sheriff of the county. W. H. Powell, W. T. Hutchinson, George R. Shively and Grant Crawford are sureties.

HE POSED AS A NEGRESS

WENT CARRIAGE RIDING WITH BEAUTIFUL GIRL DOWN IN GEORGIA.

AN ALLEGED CRIMINAL ASSAULT

William H. Mitchell, a Leading Citizen of Thomasville, Is on Trial in a Case That Is Truly Sensational.

Thomasville, Ga., Dec. 2.—Charged with having criminally assaulted Miss Lucile Linton, William H. Mitchell, a leading citizen of Thomasville, and related to a dozen of the most prominent families of Georgia, was put on trial here.

Miss Linton, the victim of the alleged assault is a beautiful young woman and heiress to \$200,000, left her by her father, who recently died. It is charged that Mitchell was disguised as a negress when the alleged assault was made on Miss Linton.

Miss Linton was the first witness called by the state, and in a voice that was almost inaudible she told how she was lured from home by a person dressed as a negress, who brought a note stating that Miss Linton's brother-in-law was badly injured and requested her to come to him.

Miss Linton said she entered a carriage with the supposed negress. The vehicle, Miss Linton says, was driven into a woods and then she became suspicious.

Soon the supposed negress assaulted her, and in the struggle that followed she recognized her assailant, she said, as W. H. Mitchell.

Miss Linton, blushing with shame and in tears, told of her experience and how her screams brought aid when her assailant fled.

She said that in the struggle after she recognized her assailant as Mitchell, she offered to give him her fortune if he would release her, but the offer was spurned.

Miss Linton was being cross-examined when court adjourned.

Leading lawyers of Georgia are engaged in the case, and scores of prominent women have been summoned as witnesses by Mitchell.

The case will occupy several days.

WIFE FOUND LETTERS

Husband Wrote to Church Worker, Then Disappeared.

Cleveland, O., Dec. 2.—"Good by. I shall trouble you no more. Hereafter I shall be a wanderer on the face of the earth."

These three sentences, written by Theo. B. Rogers, of North Ridgeville, Lorain county, form his farewell to his wife.

He was superintendent of the Congregationalist Sunday school, a deacon in the church and clerk of the church board. He and Miss Alida Balomb, a young worker in the church, became friends, and after she left to teach school they corresponded. The wife found the letters.

VERNON COUNTY SUE

Ex-Sheriff John T. Harkreader Plaintiff in Case.

Ex-Sheriff John T. Harkreader has filed suit in Circuit Clerk Huff's office against Vernon county for amounts alleged to be due him on accounts, says the Nevada Mail.

He alleged in his petition that as sheriff of Vernon county the law re-

quired him to keep the county jail in sanitary condition, and in order to do this it was necessary for him to furnish the jail with water and gas.

That he paid out \$210.45 for water and gas and that the county has never reimbursed him and he asks judgment for the amount he paid.

He also asks judgment for \$7.34 he expended for stamps used in his office and \$24 for janitor hire which he paid.

Damage Suit Continued.

Judge J. B. Rickman today consented to a continuance until December 14 of D. T. Henderson's \$250 damage suit against the Sedalia Ice, Light and Fuel company, owing to the illness of J. R. Andier.

BLOODLESS REVOLUTION

PEOPLE OF HAITI ROSE AGAINST THE PRESIDENT THIS MORNING.

TROOPS OFFERED NO RESISTANCE

New Provisional Government Is Formed—Mob Surrounded Former Ruler's Palace, Cursing Him and Family in Bitter Terms.

Port Au Prince, Haiti, Dec. 2.—The people of Port Au Prince have revolted against the government and are now in possession of the city. There was no fighting with the government troops and they made no resistance. A provisional government has been established and General Legitime has accepted the presidency of the new administration.

It was not thought the outbreak would occur so quickly or would be successful without the shedding of a drop of blood.

Cursing the Former President.

Port Au Prince, Haiti, Dec. 2.—The people of Port Au Prince have turned against President Alexis, and the palace is surrounded by an infuriated mob, calling up on him to leave the country.

Almost everybody in the crowd is armed. Haitian women, besides themselves with rage, are calling down curses upon the head of the aged man who was today deposed from the presidency of the republic, and are hurling coarse epithets at him and his family.

CATTLE ARE STARVING

Early Opening of Winter Found Stockmen on Range Unprepared.

Denver, Colo., Dec. 2.—Thousands of cattle on the range in Colorado are reported to be starving, with the prospect that there will be an unprecedented loss to cattlemen during the winter, which opened early and caught a majority of the stockmen unprepared.

Feed is selling at almost prohibitive prices in the range districts, has now bringing \$25 to \$30 per ton in the Arkansas valley and Park Range districts.

NUDE MAN BOBS UP AGAIN

Complaint Has Been Filed With Local Authorities.

Complaint has been filed with the authorities that a practically nude man, attired only in an overcoat, is again making his appearance in front of female pedestrians on the streets at night.

The tactics used by the man resemble those followed by "Overcoat Jack" some months ago.

The complaining person is a single lady, residing in East Sedalia, who, while accompanied by a lady friend, was confronted by the stranger one night last week.

■ DANGER AT PINE BLUFF

River Is Rapidly Rising and Threatens to Destroy the City.

Pine Bluff, Ark., Dec. 2.—The Arkansas river reached a stand of 23 feet early today and is rising rapidly. The bank of the river in the rear of the Jefferson hotel and county court house began falling into the river in large sections this morning. The court house annex has been vacated by the officials, who consider the building unsafe.

A \$25,000 DAMAGE CASE

SUIT HAS BEEN FILED AGAINST MR. MILTON A. MORRIS, A WEALTHY MAN.

MRS. COTTERELLY THE PLAINTIFF

She Alleges That the Defendant Is the Father of Her Daughter, Who Is Now Twenty-Three Years of Age.

New York, Dec. 2.—"Notwithstanding the fact that the case of my client is somewhat out of the ordinary, I think we shall pull through," declared Louis Posner, lawyer, in speaking of the breach of contract suit for \$25,000 brought against Milton A. Morris, of this city and Indianapolis, by Mrs. Ernestine Cotterelly, a widow, who maintains that Morris is the father of her 23-year-old daughter.

"The reason I have undertaken the case," continued Mr. Posner, "is because I am absolutely convinced of the truth of Mrs. Cotterelly's statement. What she accuses Mr. Morris of is positive, and the child born in Covington, Ky., in 1885, I am sure is his.

"My client met Morris while she was returning from Europe one summer. Morris and his sister were on the boat and a warm friendship sprang up between the two girls. Mrs. Cotterelly was then Ernestine Close, and she was invited to visit the Morris at their home in Indianapolis."

"It was while on this visit that everything happened. She was then 17, and a guileless girl. This man promised her marriage. He was married at the time, but she says he agreed to divorce his wife and marry Ernestine. Of course, it all fell through—he left her—and later she gave birth to this child. He roved from state to state during the ensuing years and she was never able to lay hands on him.

"By the merest accident I learned of his whereabouts recently, and the other day succeeded in confronting him in my office."

SURPRISE SHOWER PARTY

For Popular Young Couple Recently Married.

Mr. and Mrs. Henry Conser, recently married and now living at 604 East Thirteenth street, were pleasantly surprised Tuesday afternoon by a party of a dozen Southeast Sedalia ladies who proceeded to shower the peased and esteemed couple with many articles of usefulness.

After an enjoyable afternoon the visitors partook of refreshments, and at 5 o'clock left the happy couple happier.

Those composing the visitors were: Mesdames C. R. Moore, Gretta Gray, H. M. Hammond, Maggie Davis, Harry Hammond, Wolfe, Wright, Higgins, Englund, Osborne, Turner, Keeling, Misses Bessie Turner, Eunice and Gretchen Gray and Mabel Dempsey.

SLAIN SON'S PICTURE

Held Aloft as Mother Rushed Into Court Crying Vengeance.

Chicago, Dec. 2.—Holding aloft a picture of her murdered son, whose dismembered body was found in Mud Lake, and crying for vengeance on Hassan El Hashash, alias "Hassan the Turk," accused of killing the boy, Mrs. Mary Shashem caused a panic as she rushed wildly into Judge Kersten's court during the hearing of another case.

While the bailiff and policemen struggled with Mrs. Shashem the spectators of the court were thrown into a panic.

WALLACE ON REAL SKIDS

An Injunction Stops Crusader's Moving House.

Kansas City, Mo., Dec. 2.—Judge William H. Wallace, Sunday-law crusader, is "up in the air" now. He started to move his three-story brick house to a new lot one block away. The contract was to permit the judge and his family to occupy the

house en route, the journey not to last longer than two weeks.

Yesterday the start was made and the house rolled for a distance of fifty feet when E. L. Scarritt and a number of other property owners along the route got an injunction.

They alleged that the Wallace touring house would destroy valuable shade trees.

Last night the former candidate slept uneasily upon skids, his house all awry, and everybody laughing at his plight.

Mercury 15 Above Zero.

The thermometer at 6 o'clock this morning registered 15 degrees above zero. At the same hour yesterday it registered 20 above zero.

HAD BETTER STAY AWAY

FROM THE TOWN OF LEBANON, MO., UNTIL THE EXCITEMENT BLOWS OVER.

THE ADVICE OF SENATOR FARRIS

Dr. Paul Pritchett's Wife Died From an Operation in St. Louis Only Five Days After She Was United in Wedlock.

St. Louis, Mo., Dec. 2.—Dr. Paul Pritchett, of Lebanon, Mo., was released yesterday, after Assistant Prosecuting Attorney Falkenhainer refused to issue an information against him.

Pritchett was arrested Monday night, after a coroner's jury verdict that "homicide by unknown parties" caused the death of Pritchett's bride of five days, who was Miss Bertha Holt, aged 21, of Lebanon, until she came here and married Pritchett.

Dr. Thomas Mansfield, who had signed a certificate giving inflammation of the bowels as cause of her death, was also released.

Falkenhainer explained he refused an information because a jury had failed to hold any one responsible.

Ex-Senator Frank Farris, the dead bride's relative, said, when told that Pritchett would probably attend the funeral:

"If I were Pritchett I would not go to Lebanon at this time."

"UNCLE BILLY" WAS HOST

Invited Town's Widows That He Might Have Pick for Wife.

New York, Dec. 2.—The Ann Arbor stock and the Detroit, Toledo & Ironton consolidated 4 1/2 per cent bonds, which are pledged as collateral for the \$5,500,000 of Detroit, Toledo & Ironton notes, a majority of which is now represented by the Ramsey Noteholders' committee, will be sold at public auction tomorrow by Adrian H. Muller & Son for the account of the United States Mortgage and Trust company as trustee of the notes.

The collateral is to be sold in two lots, one including all the bonds and the other the common and preferred stock of the Ann Arbor.

This is intended to further the carrying out of the agreement between the Ramsey committee and the Hollins interests by the terms of which the Ramsey committee, subject to an option of purchase given the Hollins interests, will control the Ann Arbor stock, and the Hollins interests will control the Detroit, Toledo & Ironton bonds.

The conditions of the sale include the deposit with the auctioneers by intending purchasers of \$50,000 in certified check or \$100,000 in the notes themselves as security for the carrying out of their bids.

Election Expenses Filed.

Expense accounts from the recent general election have been filed with Recorder Morey as follows: E. E. Johnson, representative, \$77; Frederick R. Scholten, public administrator, nothing; John W. Barnett, prosecuting attorney, nothing; Hugh Smith, coroner, nothing; J. M. Kaus, constable, nothing.

Man Who Stole Meal Fined.

Frank Sullivan, the Kansas Cityan who was arrested Tuesday for stealing a sack of meal from a Man street grocer, was fined \$25 by Police Judge Gresham today. Sullivan's partner, whose women is too complicated to spell, was fined a similar amount.

DOG MEAT AND OYSTERS

PROFESSOR SAYS THE FORMER IS MORE PALATABLE THAN BIVALVES.

A ROAST FOR PHILIPPINE POLICY

Head Hunting, According to Mr. Frederick Starr, Is On a Par With Some of the Religions in America.

Chicago, Dec. 2.—Frederick Starr, professor of anthropology at the University of Chicago, in a church lecture here on the Philippines said:

"In all the islands there is not a tribe that is not capable of self-government. There can be no doubt in anyone's mind as to the christian tribes, but even to the savages I think the words 'good republican' apply. No man is good enough to rule another man without that man's consent."

"Oh, oh," you say, 'but they are head hunters and dog eaters. They are. But I never could see why the dog should not make good food. They eat only clean, white young male dogs. Why should the idea of eating a dog give us the shivers, while the actual consumption of swine does not turn the stomach of the daintiest lady?'

"Why, do you know I have seen people in this country eat raw oysters. I have done it myself. Think of a person who eats raw oysters sneering at a people who eat clean cooked dog."

"As to the head hunting, that is over now, but when it existed it was a religious ceremony, and does not compare unfavorably with some religious ideas prevailing in the United States."

A man who lived within a short stone's throw of this church was murdered by the Negro hillmen last summer.

"Dispatches of a few days ago said the body had just been found. Not later than June 10 of this year I met the man who was sent out to find that body, on the road to Manila with it. He had it with him then. But it was not expedient that you should hear the truth about it before the election. Now comes the faked dispatch. This is an example of American statecraft, imperialism and censorship that we are inflicting on the Philippines."

W. C. T. U. HELD MEETING

Will Meet Monthly Hereafter Instead of Twice a Month.

The W. C. T. U. met Tuesday afternoon at the home of Mrs. W. M. Alsbaugh on West Seventh street. It was decided to hold the parlor meeting at the home of Mrs. Sarah Cotton, on East Broadway, from 2:30 to 5 o'clock next Tuesday afternoon, and a cordial invitation is extended to the public to attend.

The organization also decided to meet monthly hereafter instead of bi-monthly, and the next meeting will be held on the first Tuesday in January at the home of Mrs. J. L. Gold on East Seventh street.

After the meeting refreshments of chocolate and wafers were served.

WE'LL BONDS AT AUCTION

They Are Pledged as Security for \$5,500,000 of D. T. & I. Notes.

Portland, Ore., Dec. 2.—W. C. Brown, known in the little town of Dallas, Ore., as "Uncle Billy," entertained seventy-six widows at a banquet yesterday.

The number included all the widows in his town and immediate vicinity. It was strictly an invitation affair, and if any were omitted it was by inadvertence.

"Uncle Billy" is a widower and is looking for a wife. He was 84 years old yesterday and celebrated the event by inviting those whom he thought possible candidates for that position.

The oldest of the guests was 91 and the youngest 25. He presided at the banquet and called upon many of the guests for toasts.

Burial of Mrs. Hale.

The funeral of Mrs. Martha Hale, who died Monday evening, was held at the chapel in the vicinity of the Alcorn residence, southeast of Sedalia, at 10:30 o'clock this morning, and burial was made in Crown Hill cemetery.

Will Be Warmer.

Fair tonight, with warmer west
portion. Thursday increasing cloudi-
ness and warmer.

NOW IS THE TIME TO GET THE
MOST FOR THE MONEY.

The best and most satisfactory
Christmas gifts can be selected only
at leisure. There must be time to
think of the persons for whom the
presents are being purchased and
there must be opportunity to examine
and compare the many things offered
for sale in order to choose from them
wisely. Early December offers the
chance to buy under these favorable
conditions. With each day nearer
Christmas, commencing with this
week, the shopping crowd increases,
perhaps imperceptibly at first, but in
a few days noticeably, and almost
before we know it the final distract-
ing rush will be on.

In the crowds of late Christmas
buyers all will be confusion, rush,
grab and worry. In the pushing, hur-
rying jam it will be impossible to
think clearly, to inspect articles with
care and to choose with any discrimi-
nation. The late buyer must take
what remains and take it without
thinking long, for the best things will
be gone before the rush is on, and
what is left will be snapped up, bar-
gain day fashion.

The wise holiday shopper is the
early one, and he or she always car-
ries away the prizes and far the
most for the money. The rush crowd
finds only the things that have been
much handled and often rejected.
The thoughtful ones also do their
Christmas buying in the morning. It
is then that stores and shops are in
order and salespeople fresh and cheer-
ful and most anxious to please and
assist. During the morning hours se-
lections can be made with both care
and comfort. It really is a pleasure
to shop at this time of the day. Later
the crowds commence to pour in, and
the unthinking, pushing, grabbing
buyers swoop down on the tired
clerks and purchases must be made
under more or less confusion and
excitement. It is hard to find what
one wants, and seldom are the selections
wholly pleasing.

The wise merchant has his Christ-
mas goods on early and the wise buy-
er is on hand to get the pick of the
lot as soon as they are on display.
The merchant is anxious to give
every customer the best service and
most attention possible, but thought-
ful buyers must realize that these ad-
vantages are greatly minimized when
the store is crowded. If you wish,
therefore, to get the best and most
for your money and to enjoy Christ-
mas shopping as you have never done
before, commence forthwith.

ANOTHER BURBANK MARVEL.

In a recent address before the stu-
dents of the University of California,
Luther Burbank made a comforting
report of progress in his experiments
with the spineless cactus. On his own
place at Santa Rosa, he has demon-
strated that ninety-nine tons of cas-
tus fruit can be grown on one acre
of ground. This is an average of one
full wheelbarrow load to the square
yard. The fruit contains 16 per cent
of sugar and is as wholesome as an
apple.

"No plant in the world produces so
profusely and such nourishing food as

this thornless cactus." This very
large statement appears in the re-
ports of the address in the San Fran-
cisco newspapers. Perhaps it is as
well to await confirmation of all the
claims put forward for the new plant
before buying up desert lands on
speculation, but unless Mr. Burbank
has been misquoted again and again
in this matter, his new plant is bound
to lead to sensational results in des-
ert farming.
He finds that while his cactus yields
best under cultivation, it drives out
the desert cactus on its own ground
because of deeper roots. The only ob-
stacle yet found to its spread over
large desert areas is its inability to
defend itself against attacks of rab-
bits and other desert animals. Noth-
ing can harm the old fashioned cas-
tus on account of its guard of thorns.
The new cactus invites instead of re-
pels attack, and therefore must be
protected against browsing animals.

WAGES AND THE TARIFF.

The stand-patter will tell you—has
told you a thousand times, no doubt—
of what great benefit the tariff is to
the American working man. And, to
prove it, he points to the wage scales
in this country, with a tariff, and in
Great Britain, where free trade has
long held sway. It is hardly a fair
comparison, although the fact is rare-
ly mentioned in the argument that a
dollar means more in Britain than in
America.

This country is new and not crowd-
ed. Its natural resources are greater
than those of any other country, and
its working men do more work. Nat-
urally enough, they are the best
paid, and, at least, not wholly be-
cause of the tariff. Wages are as
high, if not higher in this country in
industries that are not protected as
in those where the tariff works to-
ward monopoly.

Germany has a tariff and has as in-
telligent and capable working men as
Great Britain, but the German is
poorer paid than the Briton in every
line of toil. The tariff hardly seems
to be the explanation. And, in the
meantime, the tariff is continually
causing prices to soar, and helping
chiefly those who least need help.
The tariff is an institution of the
government and the government is
supposed to be the people, and not a
tool to help a few who need no help.

It needs regulating, and if it isn't
regulated downward, there will still
be cause to doubt that the people
rule.

John D. Rockefeller's lawyers as-
sert that their client can't be prose-
cuted. However that may be, nobody
has had any very high hopes that he
would be prosecuted.

France appears to be a great deal
more excited than shocked by the
Steinhell scandals and crimes.

lief. No human tongue can tell how
I suffered, and I had given up hope of
ever getting well until I began taking

WILL ENJOY YOUR MEALS

GIVE YOUR STOMACH A GOOD
EAT WITHOUT FEAR OF IN-
DIGESTION OR DISTRESS.

CURED BEFORE YOU REALIZE IT

Whatever You Eat Will Be Digested,
Leaving Nothing to Ferment—If
You Will Take a Little Dia-
pepsin You Will Be Rid
of Indigestion
Forever.

The question as to how long you are
going to continue a sufferer from in-
digestion and stomach trouble is
merely a matter of how soon you be-
gin taking Diapepsin.

If your Stomach is lacking in di-
gestive power, why not help the stom-
ach to do its work, not with drastic
drugs, but a re-enforcement of diges-
tive agents, such as are naturally at
work in the stomach.
People with weak Stomachs should
eat Diapepsin after meals, and there
will be no more indigestion, no feel-
ing like a lump of lead in the stom-
ach, no heartburn, Sour risings, Gas
Stomach or Belching of undigested
food, Headaches, Dizziness or Vomit-
ing, and, besides, what you eat will
not ferment and poison your breath
with nauseous odors. All these symp-
toms resulting from a sour stomach
and dyspepsia are generally relieved
five minutes after eating one Tri-
angle of Diapepsin.

Go to your druggist and get a 50c
case of Pape's Diapepsin now, and
you will always go to the table with
a hearty appetite, and what you eat
will taste good, because your stomach
and intestines will be clean and fresh,
and you will know there are not go-
ing to be any more bad nights and
miserable days for you. They freshen
you and make you feel like life is
worth living.

IT WILL MARK A NEW ERA

MEETING OF FEDERAL COUNCIL
OF CHURCHES OF CHRIST
IN AMERICA.

PRATICALLY UNITED IN ONE BODY

Number of Important Subjects Are
on the Program and Will Be
Discussed by Promi-
nent Churchmen.

Philadelphia, Dec. 2.—Marking a
new era, the meeting of the Federal
Council of the Churches of Christ in
America, to be held in this city, op-
ening this evening, will be one of the
most important gatherings in the his-
tory of American churches. For the
first time, the Protestant churches of
the United States will be practically
and officially, though not organically,
united in one body. Delegates official-
ly appointed by the highest judica-
tories of thirty religious bodies will be
present to the number of about 400,
and the outcome of the meeting is
expected to be a general and united
advance in earnest evangelism and
civil righteousness.

During its deliberations the coun-
cil will consider, among other things,
ways and means of effecting the fol-
lowing specific purposes:

1. To express the fellowship and
catholic unity of the christian
church.
2. To bring the christian bodies of
America into united service for
Christ and the world.
3. To encourage devotional fellow-
ship and mutual counsel concerning
the spiritual life and religious activi-
ties of the churches.
4. To secure a larger combined in-
fluence for the churches of Christ in
all matters affecting the moral and
social condition of the people, so as
to promote the application of the law
of Christ in every relation of human
life.
5. To assist in the organization of
loyal branches of the federal council,
to promote its aims in their commu-
nities.

Other subjects will be the immi-
gration problem, temperance, church
federation, home missions, foreign
missions, religious instruction for the
school children, the church and la-
bor and kindred topics.

The council will have no legislative
authority. It can not draw up a com-
mon creed or form of government or
of worship or in any way limit the
full autonomy of the christian bodies
adhering to it. It will avoid every-
thing upon which the denominations
disagree, and lay emphasis upon the
things in which they can work to-
gether. It will recommend to the
churches concrete propositions for
joint action, where the denominations
"can accomplish more together than
apart."

It will also be the first federal
council of the evangelistic Protestant
churches of the country, the first of-
ficial inter-denominational assemblage
of American churches, the first for-
mal attempt made to demonstrate
their "essential oneness in Jesus
Christ as their Divine Lord and Sav-
ior." This federal council grew out
of the preliminary conference on fed-
eration, held in New York in Novem-
ber, 1905. Each of the thirty denom-
inations have officially approved the
propositions, and have elected their
respective quotas of delegates to the
forthcoming conference. Each was
entitled to four delegates and an ad-
ditional delegate for every 50,000 of

church communicants. The council is
therefore, a substantial, permanent
body, with definite official relations
to the constituent churches.

The churches which have approved
the plan of federation and appointed
delegates to the federal council are:
Baptist, Christian Connection, Con-
gregational, Disciples of Christ, Evan-
gelical German Synod, Evangelical
association, Free Baptists, Lutheran,
Mennonite, Methodist Episcopal,
Methodist Episcopal, South; Method-
ist Protestant, Moravian, African
Methodist Episcopal, African M. E.
Zion, Presbyterian, Presbyterian,
South; Primitive Methodist, Protest-
ant Episcopal, Reformed Church in
America, Reformed Church in the
United States, General Synod of Re-
formed Presbyterian, Seventh Day
Baptists, Society of Friends, United
Brethren, United Evangelical, United
Presbyterian, Welsh Presbyterian.

On Monday evening the churchmen
of Philadelphia will give a reception
to their distinguished guests in the
Academy of Music, which will be ad-
dressed by Governor Hughes, of New
York, who will be one of the dele-
gates.

Governor Ansell, of South Caroli-
na; Senator Dolliver, of Iowa, and
Judge P. S. Grosscup, of Chicago, also
will be delegates.

Bishop E. R. Hendrix, of the South-
ern Methodist church, will report on
"The Further Organization and De-
velopment of the Federation Move-
ment;" Dr. Edgar P. Hill, superin-
tendent of church extension in the
Presbytery of Chicago, will speak on
"Co-operation in Home Missions;"
Bishop William C. Doane, of the Epis-
copal church, on "Family Life;" Dr.
James L. Barton, of the American
board, on "Foreign Missions;" Bis-
hop Luther C. Wilson, of the Method-
ist Episcopal church, on "Temper-
ance;" Dr. O. P. Gifford, of the Ba-
ptist church, on "State Federations;"

of the International Sunday School
association, on "Sunday School In-
struction;" Dr. George U. Wenner, of

MINING CONGRESS OPENS

ELEVENTH ANNUAL SESSION
BEGAN IN PITTSBURG,
PA., TODAY.

1,000 DELEGATES AND VISITORS

One of the Objects of the Meeting is
to Promote Uniform State
Legislation and Shut Out
Fraudulent Stock.

Pittsburg, Pa., Dec. 2.—With every mineral and metal producing state from the Atlantic to the Pacific represented by distinguished delegates, the American Mining congress opened its eleventh annual session in the Smoky City today. It is estimated that the delegates and visitors number a thousand and this attendance is expected to be doubled by Friday, when the governors and mine experts of all coal states will hold a conference for the purpose of promoting uniform state legislation for protecting the lives of miners and protecting the fuel supply from waste.

Proposals for elimination of fraudulent mining stock operations, the relation between custom smelters and the ore producers; federal aid for mining schools and experiment stations; the exploitation of the rare mineral resources of the country; the conservation of mineral resources, timber and water supply and unification of the mining laws of the several states are the particular subjects which will be under discussion.

One of the leading objects of the congress is the enactment of adequate laws for the prevention of fake mining schemes. It has been successful in having stringent laws passed by some of the states covering this subject, and it is the intent on to in time have every state enact a law which will guarantee protection to legitimate mining interests.

The Pittsburg convention will take a long step toward having such a law enacted in Pennsylvania. The law that the congress is anxious to have passed is modeled on a law now in successful operation in California.

Another topic which will come up for discussion at the congress is that of rare minerals such as radium. Dr. Herman Fleck, of the Colorado school of mines, will discuss this matter. Practically no radium is produced in this country at present, but mining engineers believe that if it is properly sought for it can be procured.

Sensational developments are expected to follow the assertion of Secretary Calbraith that the Standard Oil company is rapidly securing control of the output of the mines of the country through its alliance with the smelter trust.

According to Calbraith, John D. Rockefeller is slowly but surely gaining control of the mineral resources of the United States. Through his alliance with the transportation trust and the smelter trust, which is in reality an adjunct of the Standard Oil company, Rockefeller can now tell nearly every miner in the United States what he must take for his ore.

The smelter trust has patented methods of ore reduction and ore reduction machinery until miners are compelled to ship ore to the trust and take its estimate of value.

"It has been shown," says Calbraith, "that the miner receives approximately but 50 per cent of the value of his ore after paying the regular smelting and transportation charges. The smelter trust must be compelled to devise a better method of ore reduction or to quit deducting profits under the guise of penalties. It has been shown that on shipments covering a period of eight years, the miner received 54 per cent, while the value unaccounted for was 31 per cent. In other words, 31 per cent of the value of eight years' shipments was either lost or stolen.

"In most cases, it was stolen outright. The smelter trust charges, for instance, an extra penalty for smelting zinc ores. The zinc is kept by the trust and no payment is even given the miner for the value of this metal."

Calbraith believes that he has a remedy. He wants the senate to pass the bill establishing a bureau of mines, which has already been passed by the house of representatives. He will urge on the mining congress that pressure be brought upon the senate to secure the passage of this bill.

When the bureau of mines is established, the fight is just begun, says Calbraith. The struggle will then be to secure annual appropriations for the use of the bureau of mines to be used in experimenting on methods of ore reduction for the benefit of the whole people.

CURE IT IN ONE DAY

Coughs and Colds Disappear Like
Magic When Hyomei is Used.

If the thousands of people who suffer from hacking coughs and agonizing colds would arouse themselves sufficiently to follow this advice, they would cease to complain within 24 hours.

Here is the advice, if you take it and you are afterwards sorry that you did, it won't cost you a penny:

Go to the W. E. Bard Drug Co. and purchase from them a Hyomei (pronounced High-o-mei) outfit. It will only cost you \$1.00. Take it home; use it according to directions, and if it does not cure your cough or cold, take it back, and the W. E. Bard Drug Co. will refund the purchase price.

When you use Hyomei you don't swallow nauseating drugs. You simply breathe in the soothing, pleasant and antiseptic Hyomei air through the little pocket inhaler that comes with each outfit. As this medicated air passes over the inflamed parts, relief comes almost at once, and cure follows.

Hyomei is also guaranteed by W. E. Bard Drug Co. to cure catarrh, croup, grip and asthma.

But at the Same Time Kansas Man
Wanted His "Worse" Half.

Topeka, Kas., Dec. 2.—J. A. Daley, of Richland, Kas., called at the police station Monday night and said his wife was at a local hotel in company with another man. He wanted the police to help rescue her.

Two officers were assigned to the duty. They accompanied Daley to the hotel and found Mrs. Daley with another man, registered as "P. D. Haines and wife." The searching party was admitted to Hains' room. "I'm sorry to disturb you, Hains," said Daley, "but I came after my wife."

"Oh, you needn't apologize," replied Hains, "take her." Daley and Hains then held a conference, in which Hains admitted that probably he had not done exactly the right thing by his friend. This ended the scene. Daley took his wife away, and Hains went to bed. No arrests were made.

A Correction.

Years ago, when this world was experimenting, there lived a man called Archimedes. The old man found a theory and as he ran about he cried, "Eureka, I have found it," meaning, of course, a good place to find everything new—namely, West's Book Shop. Many pretty and good idea for gifts can be found there, and you all know that they handle only the best. Yes, these were the words of the old patriarch. For things that please the recipient we have everything to suit the most fastidious taste.

St. Louis Live Stock Market.

Special to Democrat-Sentinel.

National Stock Yards, Ill., Dec. 1.—Cattle receipts 2,500. General market strong to a shade higher. Best cattle here still unsold at this writing with \$7.10 per cwt. offered for them.

If you have any prime Christmas cattle on hand, it is getting about the time to place them on the market, and we would suggest that you correspond with us. Will do our best to help you land them on a high spot.

We quote good to choice steers \$5.00 to \$7.00, and fancy Christmas cattle in moderate numbers would doubtless beat \$8.00. Medium to good steers \$4.25 to \$5.50. Good to choice feeders \$3.75 to \$4.35. Good to choice heifers \$4.75 to \$5.50; medium to good \$3.65 to \$4.65. Good to choice cows \$3.60 to \$4.25; medium to good \$3.00 to \$3.50. Cutters \$2.50 to \$2.90. Canners \$1.50 to \$2.40. Good bulls \$3.50 to \$4.00, and sausage bulls \$2.40 to \$2.60. Top veal calves \$7.50; bulk of the good ones selling around \$7.00. Outlook strong.

Hog receipts 12,500. Best heavy hogs 10 to 15c higher; others about 5c higher than yesterday. Top \$6.20 for two loads sold by us. Bulk of all the hogs sold at \$5.55 to \$5.90. No change in pigs, which continue to sell at \$4.25 to \$4.50, and we recommend feeding that kind for a later market. Prospects steady this week.

Sheep receipts 2,000. General market 15c to 25c higher than yesterday; top lambs \$6.60; top yearlings \$5.50; top native sheep \$4.50. Prospects steady.—National Live Stock Commission Company.

AMUSEMENTS

SEDALIA THEATER.

"Lena Rivers."

There is no doubt that the drama is the relationship of human beings; a drama to succeed must contain that subtle "something" in us that we read and talk so much of, yet know so little. Over fifty years ago a little book came from the press. "A woman named Mary J. Holmes was the writer." "Lena Rivers" was the name the book bore. Its success was instant and has continued ever since.

Now comes the announcement that a dramatization has been made of "Lena Rivers" and a play embodying all the characters, incidents and scenes contained in the book has been staged. Beulah Poynter made the dramatization and in play form "Lena Rivers" has proved as popular and successful as the book. The play has lived and gives promise of successful popularity for years to come. At the Sedalia theatre Saturday, matinee and night.

"Fritz," the Wandering Musician.

Joe Hartz, who, to his long-acknowledged ability as a singer, is rapidly improving in experience as an actor, is the star of a new play at the Sedalia theatre Sunday night, called "Fritz, the Wandering Musician."

A good bit of rascality is wrapped up in the story of "Fritz, the Musician." One rascal has betrayed a Spanish girl, whose child he gives to a band of gypsies. He and another villain form a plan to wrong the father of the heroine. Fritz has fallen in with a little maiden named Tess, who is really the Spanish girl's daughter. The wandering musician likewise has two loving and faithful companions in his big dogs, Rex and Leo. After a series of exciting and complicated doings in which he is the savior of lots of imperiled people, he is accused of a murder and found guilty. Escape follows and he gets the upper hand of the rascals who have been persecuting him.

Williams and Walker.

Few attractions on the modern stage have the compelling power of the productions in which Williams and Walker, those kings of colored comedians, annually tour the country. In their latest vehicle, "Bandanna Land," in which they come to the Sedalia theatre Tuesday, Dec. 8th, and they have very congenial roles and are supported by a large and capable company. Among the song "hits" are "Any Old Place in Yankee Land is Good Enough for Me," sung by Williams and Walker and company; "At Peace With the World," by Bert Williams; "Bon-Bon Buddie," by Geo. Walker; dances and ensemble numbers are frequent, which round out a big evening of fun and amusement.

The Cameraphone.

The latest device in the moving picture world is proving a great success at the Sedalia theatre. The program this week includes some of the most clever vaudeville people on the American stage today. The pictures are so life like that when you hear the voice from the phonograph, it is hard to tell whether you are looking at real live performers or not. The features of the program are Webb & Moulin, song and dance artists, a sketch from "The Music Master," David Warfield's great success, the death scene from "Jekel & Hyde," Krausmeyer's birthday party. The moving pictures are Henry E. Dixey in the leading role of David Garrick, Ambulance dogs and Idle Policeman. The program lasts an hour and the first performance starts at 8:00 and the second at 9:00 o'clock.

Heart Strength

Heart strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is also directed to those weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help. If you would have strong Hearts, strong digestion, strengthen these nerves—re-establish them as needed, with

SOME CURIOUS EPITAPHS

Effort Being Made to Preserve Those in English Churchyards.

The Suffolk Institute of Archaeology has just issued an appeal to incumbents in the country to transcribe the epitaphs in their churchyards so that a permanent record may be kept.

Some curious epitaphs come to mind. Here is one reminiscent of "Omar Khayyam":

"Beneath this stone lies Catherine Gray.

Changed to a lifeless lump of clay. By earth and clay she got her pelf, And now she's changed to clay herself.

Who knows but in a course of years, In some tall pitcher or brown pan, She in her shop may stand again?"

Short and succinct is the following:

"Here lies Robert Wallas. The king of good fellows. Clerk of all Hallows. And maker of bellows."

The following punning epitaph is inscribed on the tomb of a Liverpool brewer:

"Poor John Scott lies buried here. Although he was both hale and stout.

Death stretched him on the bitter bier:

In another world he hops about."

There is a delicious blending of the spiritual and temporal in this:

"Beneath this stone, in hope of Zion, Doth lie the landlord of the 'Lion.' His son keeps on the business still, Resigned unto the heavenly will."

Temperance advocates should not read this epitaph:

"She drank strong ale and punch and wine

And lived to the age of ninety-nine."

There is a touch of malice in the inscription to the Rev. Mr. Chest:

"Here lies at rest, I do protest, One chest within another."

The chest of wood was very good— Who says so of the other?"

Here is a curious one on a tombstone in Hartland churchyard:

"Here I lie outside the chancel door:

Here I lie because I'm poor. The further in the more they pay, But here I lie, as warm as they."

KILLED PICTURE AGENT

SISTERS QUARRELED WITH A MAN OVER QUALITY OF THE WORK DONE.

HE STRUCK ONE OF THE FEMALES

Then the Other Fired a Revolver and Bullet Entered Man's Heart —Both Women Surrendered to the Police.

Chicago, Dec. 2.—Shooting, she says, in defense of her sister, Miss Estella Stout yesterday killed Henry Hornberger, agent for a picture enlarging concern.

Mrs. A. Chambers, a sister of Miss Stout, quarreled with Hornberger, according to the police, over an enlarged picture of a third sister, who is dead, when Hornberger called to deliver it.

Mrs. Chambers said the picture was not a good likeness and she said Hornberger struck her, felling her to the floor.

As she arose she saw her sister, Miss Stout, standing with a smoking pistol in her hand and her assailant dead with a bullet through his heart.

Miss Stout admitted firing the shot, averring that she did so to save her sister's life.

Both women awaited the arrival of the police and willingly accompanied them to the station.

PORTLAND, MAINE, CHILD Ill, Weak and Emaciated, Restored to Health by Vinol

"Our little daughter, six years of age, after a severe attack of the measles, which developed into pneumonia, was left pitifully thin, weak and emaciated. She had no appetite, and her stomach was so weak it could not retain food. She lay in this condition for weeks, and nothing the doctor prescribed did a bit of good, and we were beginning to think she would never recover.

"At this time we commenced to give her Vinol, and the effect was marvelous. The doctor was amazed at her progress, and when we told him we were giving her Vinol, he replied, 'It is a fine remedy, keep it up.' We did so, and she recovered her health and strength months before the doctor thought she could." J. W. Flagg, Portland, Me.

"Vinol cures conditions like this because in a natural manner it increases the appetite, tones up the digestive organs, makes rich, red blood, and strengthens every organ in the body."

MILK AND BUTTER SHOW

THIRD ANNUAL MEETING OF NATIONAL DAIRYMEN IN CHICAGO, ILL.

REMAIN OPEN UNTIL DECEMBER 10

Undoubtedly the Biggest Display of Milk Cows, Milking Machinery and Milk Products Ever Seen Anywhere.

Chicago, Dec. 2.—The gentle lowing of sad-faced kine resounded through Chicago's Coliseum today, the "bessies" forming an important part of the third annual National Dairy show, which will remain on exhibition until December 10. It is undoubtedly the biggest display of milk cows, milking machinery and milk products and processes ever held in the Windy City or in any other part of the world.

There is no doubt that this show, to a greater extent than either of its predecessors, will accomplish its purpose of bringing together dairymen, butter and cheese makers, farmers and manufacturers of dairy products from all parts of the country, for educational purposes; also to present at this gathering the best and most up to date makes of dairy machinery, and to show choice herds of cattle representing all the different dairy breeds; in fact, it is desired to make the occasion the big event of the year for dairymen, and to exhibit the different branches of the dairy industry that the people of the country will realize the importance and magnitude of this great industry.

The experts of the dairy division, bureau of animal industry, United States department of agriculture, are taking an active part in the show and will conduct a milk and cream contest which will be the most important of its kind ever held in the United States. Producers of market milk in all parts of the country are among the competitors.

The first contest of this kind was held in connection with the National Dairy show, Chicago, February 15-21, 1906, under the direction of the dairy division. Milk and cream were sent from thirteen different states and much interest was shown by the dairymen and it proved to be a valuable educational feature. Results were published in a bulletin of the department of agriculture.

Since the first national contest several states have had similar exhibits, including New Hampshire, Ohio, Connecticut, Illinois, Missouri, Massachusetts, Pennsylvania and Michigan. The cities of Cleveland, O., and Pittsburgh, Pa., have also held two such contests. The object of this contest is educational and for the benefit of all interested in pure milk. The milk and cream will be carefully analyzed and scored by experts from the department of agriculture. Forty points will be allowed for flavor, 25 for composition, 20 for bacteria, 5 for acidity, and 10 for appearance, package and cleanliness of milk. The quality of the milk will be clearly shown by the score.

MONEY MAKERS

Good Kansas and Colorado wheat and alfalfa lands; also small and large ranches for sale or trade. Huston Transfer Co.

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the untutored Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most obstinate and fatal diseases. If we could properly investigate them; and in the preparation of this conviction, he points with pride to the almost marvellous cures effected by his "Golden Medical Discovery," which has proved itself to be the most efficient stomach tonic, liver invigorator, heart tonic and regulator, and blood cleanser known to medical science. Dyspepsia, or indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action. The reason why it cures these and many other affections, is clearly shown in a little book of extracts from native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Not less marvelous in the unparalleled cures it constantly makes of woman's most peculiar affections, weaknesses and distressing derangements, is Dr. Pierce's Favorite Prescription, as is amply attested by thousands of published testimonials. It is a powerful and reliable remedy for all the ailments of women, such as irregularities, prolapsus and other displacements caused by weakness, misregulation of uterine and kindred affections, often after other advertised medicines, and physicians had failed.

Both the above mentioned medicines are wholly made up from the genuine extracts of native medicinal roots. The processes employed in their manufacture were original with Dr. Pierce, and they are carried out by the skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose. Both medicines are entirely free from alcohol and other harmful, habit-forming drugs. A full list of their ingredients is printed on each bottle wrapper.

ANNUAL SALE, TEN MILLION BOXES

I have found California to be an ideal winter resort. Thousands of other persons have made the same discovery. Ideal for those who wish to be secure against winter's chilling blasts, its snows, its discomforts.

There flowers bloom, birds sing and fruits ripen at a season when here the reverse is true.

For persons desiring to play golf, fish, swim, go boating, automobilism, or indulge in other outdoor sports during the winter, or gain or retain health, California is the place.

I've traveled over the Santa Fe and know a great deal about it. I always recommend it to my friends who want the best. That shows my confidence in Santa Fe service.

I know California and the Grand Canyon of Arizona like a book, and am competent to give full information about the trip, whether, and what to do after reaching there.

If you have any friends planning a trip to California, send me their names and addresses, and I'll send you free copies of postively illustrated books about California and the Grand Canyon of Arizona.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because it is deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Binghamton, N. Y., on every bottle.

KANSAS DRINKING CUP LAW BECOMES EFFECTIVE IN ONE MONTH.

COACH CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

Effective January 1, passenger trains in Kansas will discontinue their practice of carrying drinking cups for the use of the general public, and the cups at drinking fountains in railway stations will also have to go.

The state board of health is hot after the various roads to see that this practice is strictly enforced. It is a full day's journey across the state of Kansas, and persons on these long trips had better bear in mind to bring along cups after the first of the year, for they will not find the usual tin drinking cups at the fountains in the passenger coaches.

The state board of health has long claimed that there was nothing which spread consumption or other infectious diseases as much as these drinking cups in stations and on trains.

The board is trying to combat the spread of consumption and is not going to overlook anything that may better the present condition.

SALOON THOUGHT NO. 29.

It is a fact that good, honest, well meaning men are honest and sincere in their belief that the saloons of Sedalia add to our prosperity. These men are honest and sincere in their belief, and it is foolish to get offended at them for their honest beliefs. There is only ONE way to figure this out and that is, does the saloon add to the prosperity of the majority of the families? Sedalia is nothing but 5,000 families, and if all these families are PROSPEROUS, so is Sedalia. Does the saloon increase the purchasing power of the majority of families? Does the saloon produce one single penny of wealth, or does it simply take the family's purchasing power, and then put it in poor shape to earn MORE. There may be about sixty families that are made prosperous BY the saloon, and to DO this there are over 1,000 families that are seriously handicapped in their purchasing power. Just reason these things out; it is not so hard to do.

IT IS STILL A MYSTERY

THE BLOWING UP OF AN ENGINE ON THE M., K. & T. THE PAST WEEK.

CAUSE OF EXPLOSION NOT KNOWN

Railroad Men Have Investigated the Case as Far as Possible, but No New Facts Have Been Brought to Light.

In the Democrat-Sentinel of last Friday appeared an Associated Press dispatch regarding an engine on the Katy exploding near Idenbro, Kas., in which the engineer and fireman were both instantly killed, and a brakeman fatally injured.

Reports from Parsons, where they were all taken, are that it is confidently believed that E. C. Roe, the brakeman, will recover, and that while he was badly scalded, cut and bruised, unless complications set in, there will be no serious results.

The remains of Fireman Wulf were shipped to Hennessey, Ok. His mother resides at Dallas, Texas, but her husband was buried at the Oklahoma town and the son was placed beside him.

Frank Melville, the engineer, was pretty well known in Sedalia, he having been here a number of times. His funeral occurred at Parsons, Kas., from the Washington Avenue M. E. church. He is survived by a wife and two daughters, one 15 and the other 14 years of age. Fireman Wulf was a single man.

A well known railroad man of this city, says the Denison Herald, returned from Parsons yesterday, where he had been on business, and stated that the explosion was the cause of a great deal of comment—that it was a mystery on account of the engine being just out of the shops, and making its first trip after being broken in.

He said that some believed the explosion was caused by the failure of the safety valve or "pop" to work, but stated also that it would have seemed that the fireman could have told by his "clock" when the danger point was reached.

The engine was of the 145 per cent class and was sent from Denison about a month ago to be rebuilt. The Daily Eclipse of Parsons gave a lengthy account of the affair, from which the following is an excerpt.

The accident is considerable of a mystery, as the engine, 255, had just been turned out of the shops, rebuilt, and Engineer Melville was known to have been one of the most careful men on the system.

There are several ways it could have happened. One is the water glass might have been stopped up or closed, and showed plenty of water, whereas the water might have been low enough in the boiler to have caused an explosion. The most generally accepted theory in cases of this kind is that the boiler was in some manner defective.

The train was No. 433, the local on the Osage division. Conductor Shippen, and the run was that of Engineer Thomas Pratt, who laid off, and Engineer Melville went out in his place.

Accidents of this nature have been few in the history of Parsons, only one parallel case ever having taken place, and only two engine explosions ever having taken place at Parsons or on the Parsons division.

On the 9th of May, 1884, switch engine No. 43, which was undergoing repairs in the roundhouse, blew up while the "pop" was being adjusted by Mike Slattery, a machinist, and his helper, young LaMonte, a son of the former depotmaster of the Katy, who died several years ago.

Several years later, a case exactly parallel with the present one occurred a few miles this side of Chetopa. Engine 266 blew up while running, killing Engineer Adams and the fireman, Frank Bailey, together with two railroad men who were riding over the road on the engine.
